Are Out, They Mourn
Is a Fairy
Joe Is Gone
New Fuel

BY ARTHUR BRISBANE
COOLIDGE realizes
country doesn't want
any World Court. Some
have been kicked out
because they tried to push
States into that court. In-
office have taken warn-
the politically dead bodies
Court agitators.
THAT'S GOOD

COOLIDGE'S an-
ment that if we can't enter
Court on any basis, we
is his way of saying that
Europe. Our
the waters, if they could
that court, would hand us
in regard to American debts
things that would be very
to them. Hence their grief.

announcement that this
will rely on its own courts
more, as the past, did not hurt
any.

For instance, those hun-
millions of Liberty bonds which
to buy all went to new high
if you kept yours you have
money.

HAVE you a little fairy in your
house, anything like the one that
Ziegfeld has discovered in Hol-
land? He is transplanting her to
New York theatre with the fol-
lowing description: "Hair, a radiant red;
eyes, deep, black; eyes, a decided
blue; skin, faultlessly clear;
features, regular and white; physical pro-
portions, perfect; carriage, aristocratic
and engaging."

Uncle Joe Cannon, once so
powerful in Congress, is now a
list of practical American
citizens.

Mr. Cannon was witty and intensely
interested. Those that had what they
needed what they had not. He
lived a period that is past, and
if any, worse than the
present.

SHORTLY before Mr. Cannon's
death his doctor said of him, "His
condition of a man 90 years of
age. Naturally, you can see that the
growing nearer. There is
why death should be near at
hand."

While human intelligence stands
science goes ahead amazingly.
engineers at Friedrickshaven
for power in the world's largest
new building, what is called
"gas", chemical formula CH₄, or
methane gas.

THIS gas weighs less than gasoline,
power developed, and ex-
the cylinders the hydrogen
oxygen, producing water vapor,
can be used for cooling and stored
in tanks.

Adding oxygen to the hydro-
gen, as up a weight in water greater
weight lost in burning, this
a uniform load for the gas
and freedom of fuel consumption.

CANADA has let the world know the
of her wheat crop, far bigger
than expected, and started the
States wheat on the downhill
slide.

Canada's Canadian crop, plus a
of 112,000,000 bushels in Aus-
tralia, hard going for the Amer-
ican, whose price in spite of our
tariff, is really made at Liv-
erpool.

HOOPER knows that
plans to remedy the situation
of the canals that will give Amer-
icaners cheaper freight rates. But
the railroads let that plan go
by the board.

They do not know it, but this
is celebrating "canned foot-
ball."

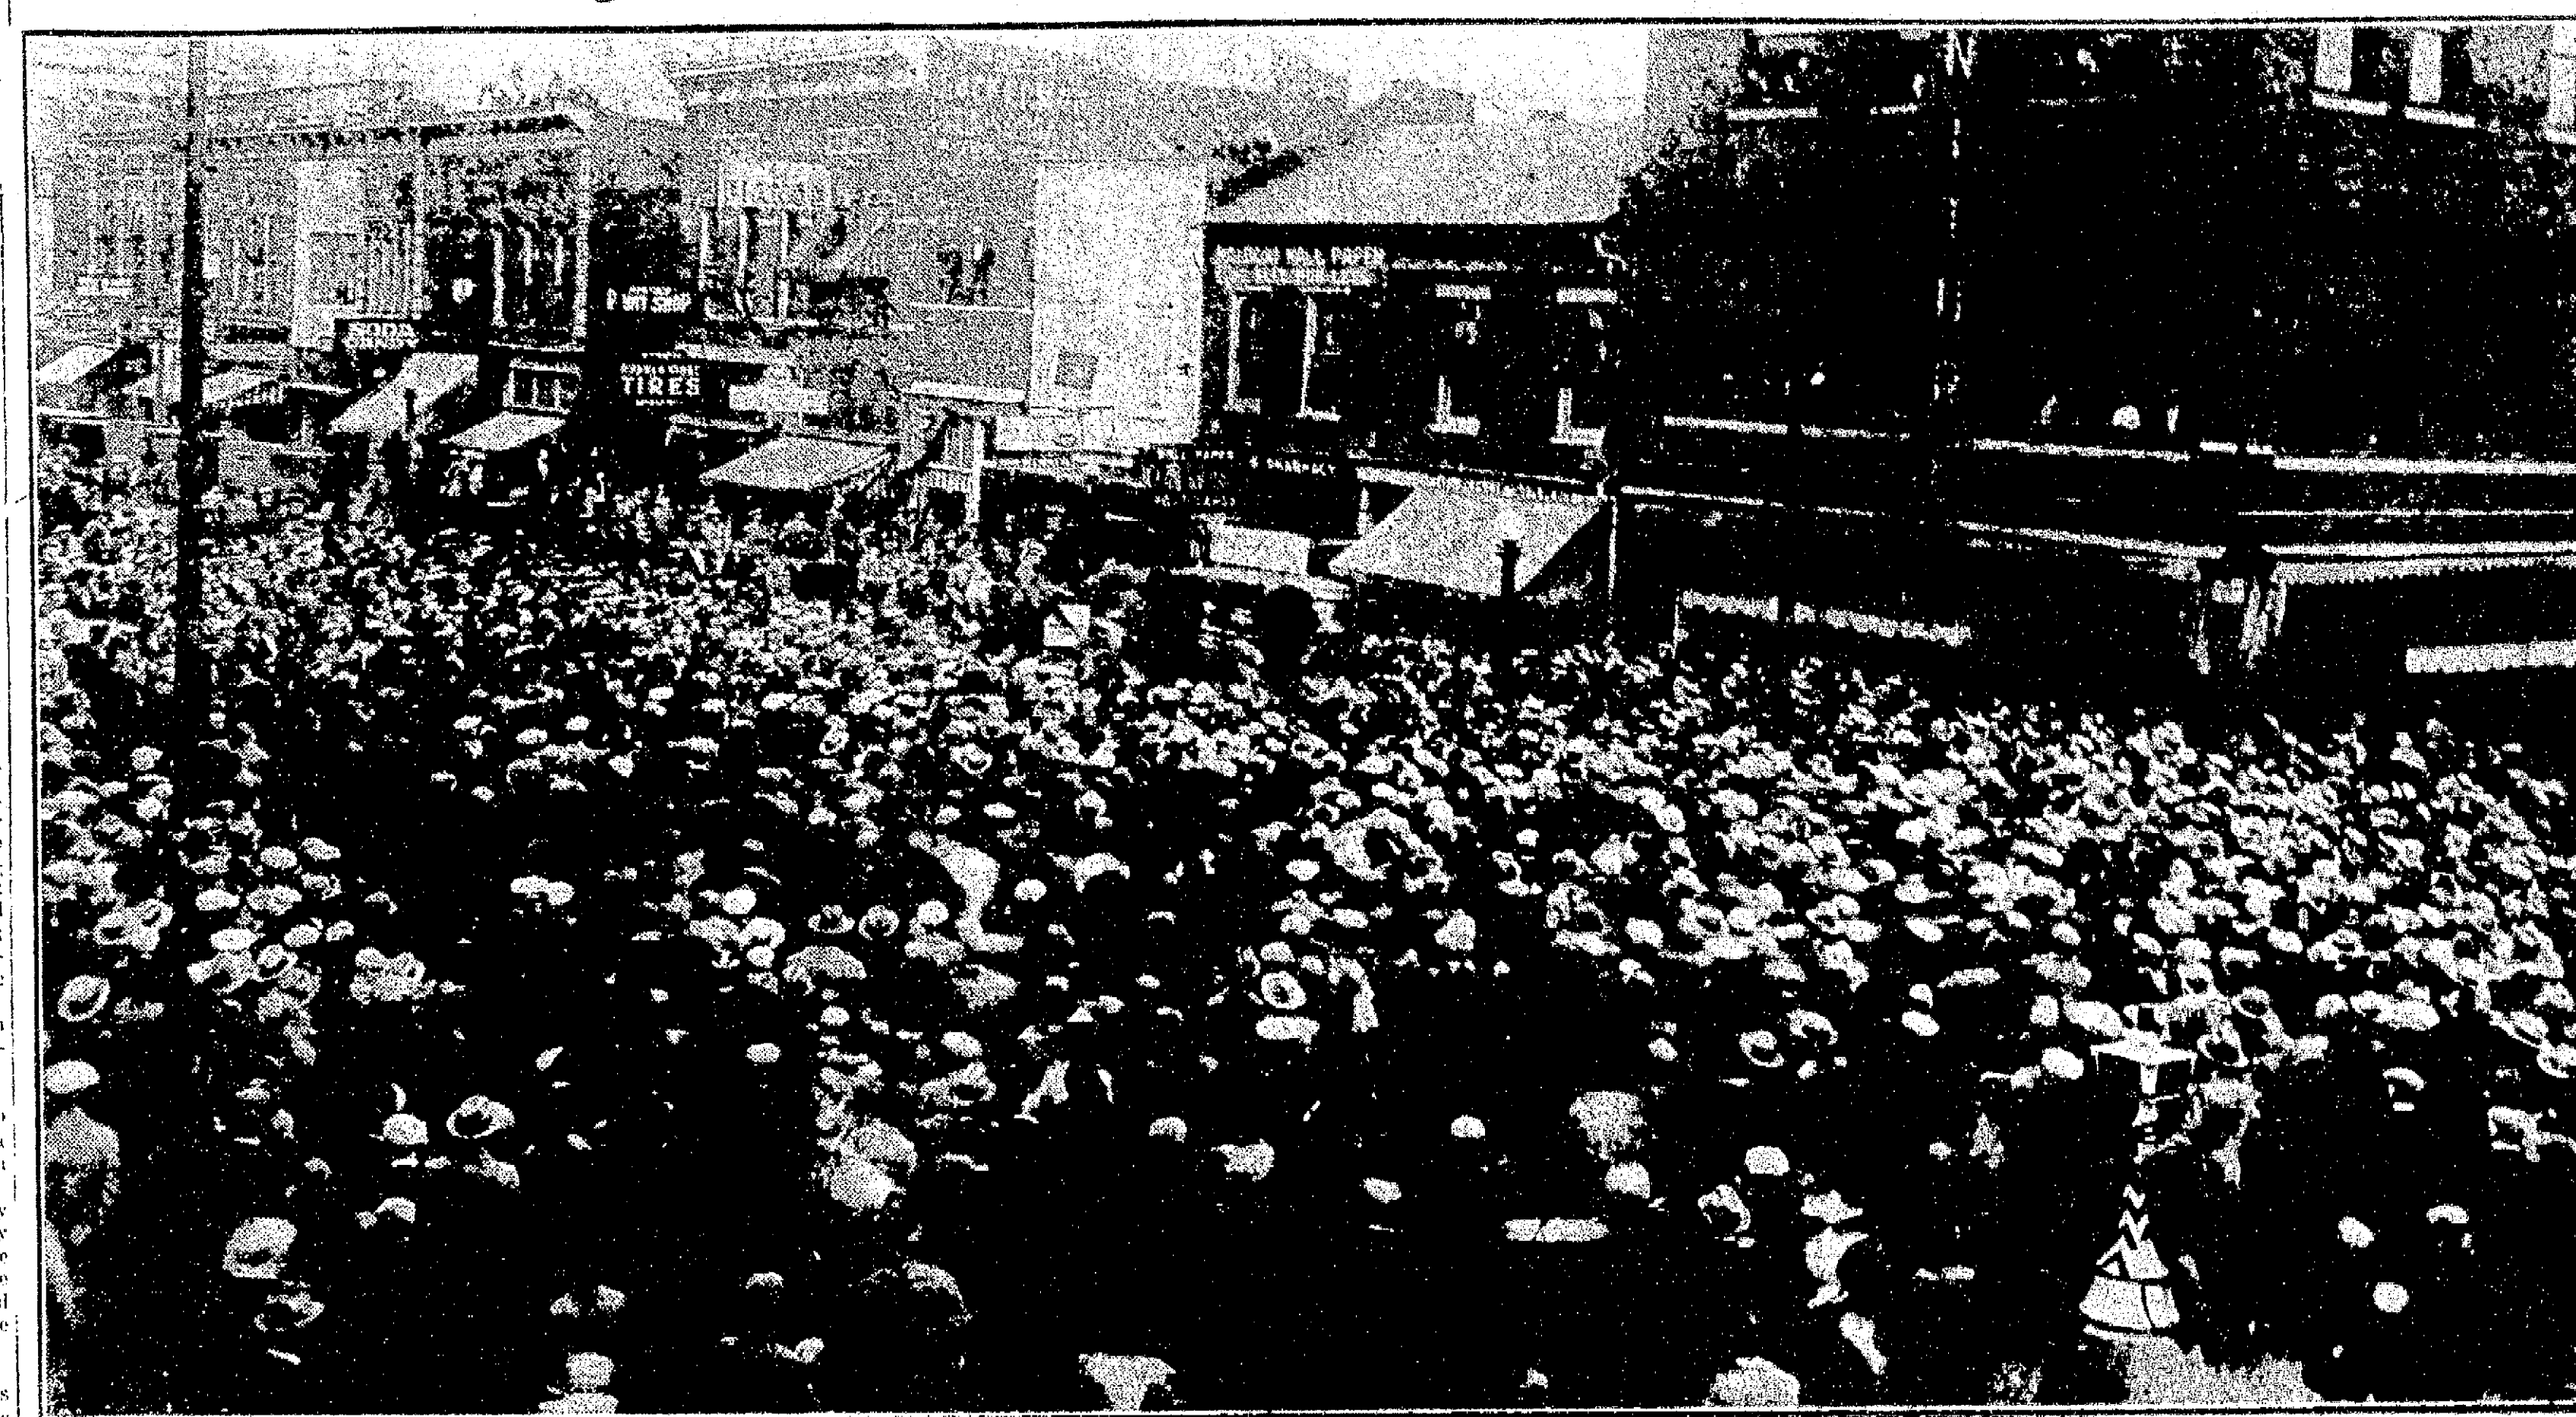

Remember that the art of can-
ning, fruits and other foods
is highly perfected. Preserva-
tion means a twelve
supply of vitamins necessary
and constant supply of well-
used too little in American
diets.

TRAFFIC DEATHS
IN HAMILTON COUNTY
Nov. 15—Traffic deaths
in Hamilton County numbered 121
for the week-end. Stanley Led-
er was killed when he was
which he was riding with
was forced from the road by
a motorist.

THOUSAND HOMELESS
Nov. 15—More than a thou-
sand people in Tokio, where two
times have destroyed 250
according to a Central News
agency.

BURGLARS LOOT MARION CHURCH

Mammoth Throng Present To See "Tireless Bud" Bradley Finish Drive

\$600 WORTH OF INSTRUMENTS, LINEN TAKEN

First Presbyterian Edifice Ran-
sacked; Believe Auto or
Truck Used

UNABLE TO REACH SILVER

Rug Valued at \$70 Among
Loot; Custodian Discovers
Robbery

That not even religious sanctuaries
are safe from invasion by the modern
criminal was shown in Marion, Satur-
day night, when burglars entered the
First Presbyterian Church here and
carried away property valued at ap-
proximately \$600. The large amount
of loot obtained by the vandals indi-
cates that they used an automobile or
truck to carry on their operations.

Practically the entire church build-
ing was explored by the robbers in
their search for valuables and while
articles were taken from various rooms,
a closet adjoining the hallway leading
to the south entrance of the edifice
yielded the main part of the loot. There
the vandals took three musical instru-
ments valued at \$370, the property of
members of the Sunday School orches-
tra. These instruments were a \$150
violin owned by Homer Askey, an \$85
clarinet belonging to Leonard Young
and Warren Ballentine's \$135 saxo-
phone.

Rug Taken
A rug valued at \$70 was stolen
from the study of the pastor, Rev. H.
W. Smiley, and a mahogany clock
worth \$20 from the ladies' parlor. The
rug was one which had been presented
to the church by the Warner & Ed-
wards Co.

The closet where the silver
communion service is stored was checked
open, indicating that the robbers were
in quest of this valuable property.
They were unable to reach the silver-
ware but made way with a dozen linen
napkins and a linen table cloth used
in communion services.

Other property taken included a \$5
jacketcase belonging to Miss Ruby
Macken, secretary to Rev. Mr. Smiley,
a Hoover electric vacuum which had
been stored in the closet from which
the musical instruments were stolen, \$5
in money recently turned into the
Sunday School by the Primary depart-
ment, a mirror, gas stove from the pas-
tor's study, seven bars of toilet soap,
a floor brush, one-half gallon of var-
nish, a half-dozen light extension wires,
a pipe wrench and 13 electric light
bulbs. The soap and other articles,

BANDITS FIRE ON PAIR IN ATTEMPTED HOLDUP

Covington, Ky., Man May Die
From Bullet Wound; Son
Will Recover

Covington, Ky., Nov. 15—Carl
Nagelstein, 59, will probably die from
a bullet wound near the heart and his
son, Alfred, will recover from a bullet
wound inflicted by three bandits who
unsuccessfully tried to rob them of \$1,
000 here today. The two men were re-
turning from a bank to their restaurant
when their automobile was forced to
the curb by the bandits' machine.
While the father and son still were
in the car, the trio fired a volley into
the machine. The Nagelsteins, both
wounded, fled, leaving the money in
their auto. The bandits pursued the
older man on foot, firing six shots at
him. Meanwhile, young Nagelstein re-
turned and gained possession of the
money.

All three of the bandits escaped.

YOUTH'S FOOT CATCHES IN SWITCH; IS KILLED

Hamilton, Nov. 15—Florin Belcher,
11, is dead here today from injuries
received when he was said to have been
struck and dragged by a G. I. and W.
freight train near this city yesterday.

The youth had been gathering hickory
nuts and, according to a coroner's in-
vestigation, his foot became caught in
a switch.

PAIR PLANNED TO ELOPE SOON, WITNESS SAYS

Sister of Mrs. Mills Declares
Latter Didn't Care Who
Knew of Affair

Courthouse, Summerville, N. J., Nov. 15—
Mrs. Eleanor Mills, slain choir singer,
and Rev. Edward Wheeler Hall were
planning to elope four years ago, short-
ly before they were shot to death, the
murdered woman's sister, Mrs. Eliza
Barahardt, an attractive, dark-eyed woman,
testified at the Hall-Mills murder
trial today.

"They were going to Japan as soon
as Charlotte—Mrs. Mills' daughter—
was out of school," said Mrs. Barahardt.
"She told me she thought more of Rever-
end Hall's hugger than she did of
Jimmy Mills—her husband—while
he lived."

Mrs. Barahardt took the stand short-
ly after John Stillwell, who drove the
hearse at Dr. Hall's funeral, testified
that he saw scratches on the face of
Mrs. Frances Stevens Hall, the rector's
widow, at the burial ground in Brook-
lyn.

"The scratches were on her left
cheek," he testified. "And to me they
looked to be fresh. One of the drivers
pointed them out to me when she raised
her veil to blow her nose."

"The defense could not shake Stillwell's
story on cross-examination.
Mrs. Barahardt said that Mrs. Mills
was her youngest sister and that they
frequently visited each other. A year ago
before the murder she frequently saw
Reverend Hall in her sister's home, she
testified. She was there several times
when Dr. Hall called.

"Did you ever observe how they re-
garded each other?" Prosecutor Alex-
ander Simpson asked.
"Well I noticed that they seemed to
think a great deal of each other,"
she said that one day her sister told

HUNTER WOUNDED NEAR FOREST THIS MORNING

Attending Physicians Hope for
Recovery of High School
Youth

Kenton, Nov. 15—The shooting that
resulted in the serious wounding of
Floyd Simpson, 14, Forest, son of the
late C. S. Simpson and a student in
the Forest High School, was reported
here today.

The incident marks the first hunting
season casualty in Hardin County.
"Though bearing marks of shotgun
bullets on right shoulder and head and
with many of the small pellets imbed-
ded in the flesh, attending phy-
sicians expect the youth to recover."
The accident occurred this morning
on the Miller farm north of Forest.
Simpson, in company with another
youth, James Greener, Carey was stand-
ing near a tree. A falling limb was
reported to have struck Greener's gun,
causing it to explode, the discharged
bullets striking Simpson. The injured
youth was removed to his home.

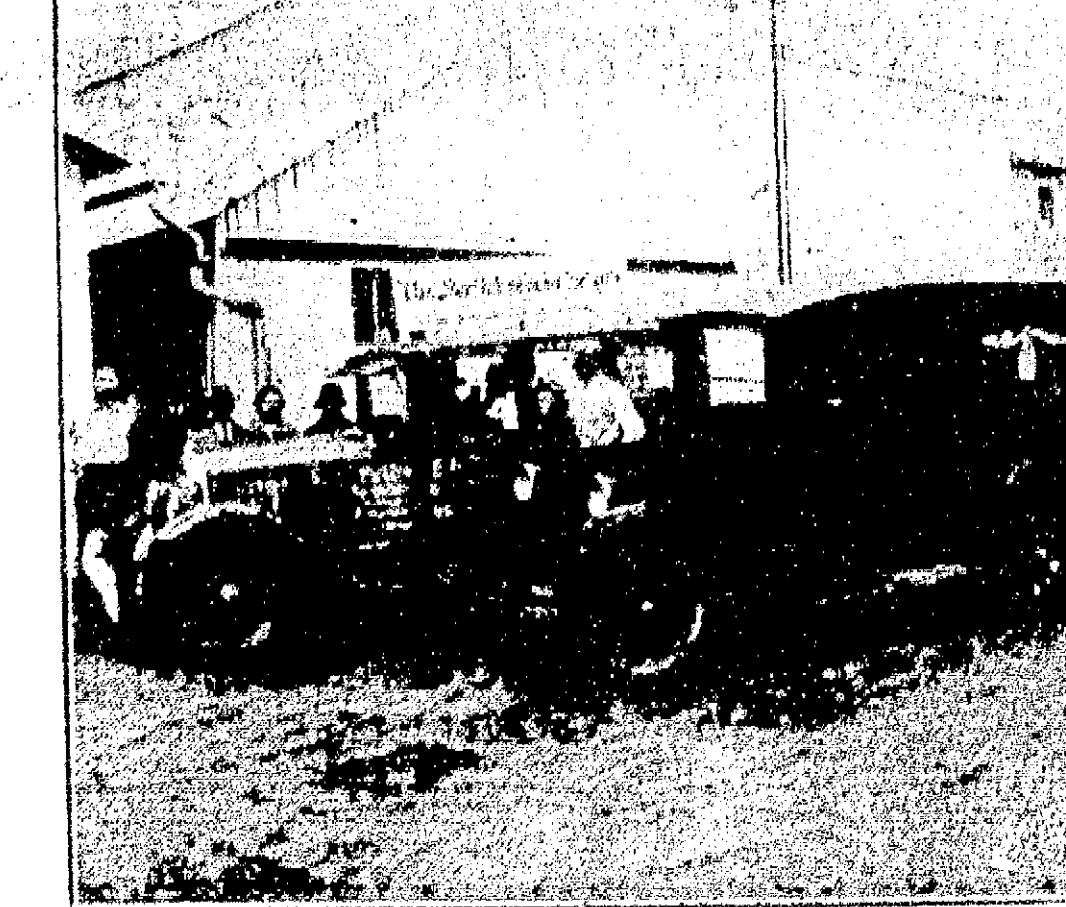

The announcement follows more than
10 years' intensive research into the
etiology of cancer and experiments in-
volving the use of human beings and
animals.

This cancer germ in defined as
"Glover's microorganism," and the anti-
toxin as "Glover's anti-toxin," by emi-
nent medical men who have been as-
sociated with the young Canadian sci-
entist in this particular field.
The anti-toxin is made from the blood
of horses and is administered to cancer
patients by injection.

Symptoms Disappear
Official reports from cancer clinics,
which have been established in many
places in the United States and Canada
to test fairly the efficacy of the treat-
ment, indicate that the anti-toxin has
therapeutic value and that in many
cases of cancer previously considered
hopeless by physicians, all apparent

symptoms disappear.
The following was included in
seizures made during a single raid yes-
terday:
First, 320 quarts of moonshine,
8,000 gallons of mash; twenty-six
200-gallon vats, and a 500-gallon still
operated by a huge gas furnace.
Most of the whiskey was ready for
holiday delivery, Russell said.

He was unmarried.

ALLEGED ASSAILANT OF TOLEDO WOMAN IS HELD

Wife of Druggist Dodges Blow
and Screams for
Help

Toledo, Nov. 15 Clifford Gardner,
19, is held by police here today, after
it is alleged, he attacked Mrs. Edna
Miller late last night, but was frus-
trated by two passersby. Mrs. Miller,
wife of a druggist, proprietor, had
driven home alone after the store had
been closed. As she descended from
her machine a man leaped from the
darkness and struck her with a club.
She dodged the blow and screamed,
fleeing toward the street. Her pursuer
made another futile attempt to strike
her and had seized her when caught by
the two pedestrians, who held him un-
til police arrived.

Several victims of the Toledo clubber
will be taken to the jail today for the
purpose of attempting to identify
Gardner.

DR. G. T. HARDING GOES TO SON'S HOME

Dr. G. T. Harding, E. Center-
father of the late President Harding,
and Mrs. Harding, are guests of Dr.
Harding's son, Dr. G. T. Harding, Jr.,
at Worthington. Dr. Harding, who has
been in failing health for the past sev-
eral weeks, is reported to be feeling
comfortably at the Rural Rest Home,
the sanatorium owned and managed
by his son.

THERE'S A CATCH!

Washington, Nov. 15—F. J.
Andrews, dry chief, is going to ask con-
gress to permit manufacture of whisky
in the United States. Wait. There's
a catch in this announcement. Dr.
Andrews today. The whisky is to be
made for medicinal purposes to re-
plenish the present stock that will be
exhausted within five years.

CHRISTMAS "CHEER" SEIZED AT NEWPORT

Federal Agent Takes 320 Quarts of
Moonshine, 8,000 Gallons of
Mash, Etc., Etc.
Newport, Ky., Nov. 15—Federal
Prohibition Agent Rodman Russell to-
day believed he not only had a record
catch to his credit, but also had put
quite a crimp in local bootlegging ac-
tivities.

The following was included in
seizures made during a single raid yes-
terday:
First, 320 quarts of moonshine,
8,000 gallons of mash; twenty-six
200-gallon vats, and a 500-gallon still
operated by a huge gas furnace.
Most of the whiskey was ready for
holiday delivery, Russell said.

FIVE MINERS ARE KILLED IN GAS EXPLOSION

Three Bodies Recovered at
Glendale Shaft; Ten Work-
ers Escaped

Moundsville, W. Va., Nov. 15—Five
miners were killed and two others seri-
ously injured in an explosion of gas at
the mound shaft of the Glendale Gas-
Coal Co. mine at Glendale, near here,
early today.

The bodies of three men were recov-
ered at the time of the explosion. Ten escaped
when the blast shook the shaft, and two
others were found, badly injured, by the
mine rescue crew. They were rushed to
a Moundsville hospital.

The dead: Walter Fogley; Ruden Kiehlert;
Mike Kovack; Thomas Rogerson and J.
E. Kiehl.
The bodies of Rogerson and Kiehl
have not been recovered.
James Lemasters and H. M. Cumber-
idge were seriously injured.

Preliminary investigation failed to de-
termine the cause of the explosion, offi-
cials stating that the mine had been
"gassed" to prevent explosions of
coal dust shortly before the disaster.

HARDIN COUNTY BOARD MAY BE OUSTED, CLAIM

Apparent Failure to Send in
Complete Election Tabula-
tion Is Criticized

Columbus, Nov. 15—Apparent failure
of the election boards of Hardin, Mahoning
and Guernsey Counties to send in to
the secretary of state an official com-
plete tabulation of the votes cast in the
Nov. 2 election may mean their removal
from office and a delaying the official
notification to those apparently chosen
of their election, it was announced at the
statehouse this afternoon.

All other counties have certified to
Secretary of State Thad Brown their
reports. The final tabulation of the
votes is being delayed, it was said.

Ohio election laws require the elec-
tion boards to file their official complete
return within 10 days after the election.
The time limit expired last Friday mid-
night and time of grace was extended to
today.

MAN, 62, KILLED WHEN HIT, DRAGGED BY TRAIN

Dayton, Nov. 15—Ben Blum, 62, is
dead today as a result of having been
struck and dragged 100 yards by a Bat-
tleground & Ohio freight train yesterday.
Police are looking for the driver of
an auto that struck Jacob Luchinsker,
61-year-old farmer, on the Springfield
 Pike, south of here, last night, and then
fled.

Announcing the New Energee DETONOX Gasoline

TO-DAY The Pure Oil Company announces a new gasoline which is offered to the public as superior to any other motor fuel now on the market. A strong statement, but this claim is upheld by every test to which a motor gasoline can be put.

The new product, Energee DETONOX Gasoline, is non-detonating, hence its name, but it is far more than "just another anti-knock gas." It generates smooth power without knocks or "pings." Energee DETONOX starts instantly—it gives lightning acceleration—it is filled with giant power and mileage beyond belief—it is clean-burning—banishes carbon troubles—it is safe because it is a pure petroleum product.

The new Energee DETONOX Gasoline has resulted from long and careful research backed by more than thirty years' experience in refining petroleum products and an investment of more than \$20,000,000.00 in refineries.

The Pure Oil Company offers this new motor fuel only after it has been proved superior by the most exhaustive tests conducted both in laboratories and under grueling road conditions.

Energee DETONOX is designed to give superior performance in the motors of to-day and will make possible more efficient motors in the future.

Energee DETONOX Gasoline is colored red for easy identification and for your protection against substitution.

It costs no more than the old Energee Gasoline, yet it has all of the good qualities of that excellent fuel—plus.

Buy it at Pure Oil Company Service Stations and at Authorized Dealers.

Look for the red gasoline
in the "Pure Oil Blue" pumps

Flats for Rent

of a series of talks on youth. In addition to the sermon special music was furnished by the choir and the church quartet.

It was the largest congregation ever in attendance at a service, church officials say. Every available space in the church was packed and standing room was at a premium.

At the close of his sermon Rev. Smiley recited "My Mother's Prayers Have Followed Me." The church quartet echoed the selection from the rear of the church. Those in the quartet are Miss Margaret Brickman, Mrs. B. L. Wallace, R. O. Bressler and V. C. Smith.

Four Causes

Automobiles, evil companions, vanity and lack of proper training in the home were cited by Rev. Smiley as the chief causes of delinquency among girls.

"A recent survey conducted in the East, Rev. Smiley pointed out, 'showed that in 15 homes for girls 42 per cent of those cared for were school girls of high or elementary grades, averaging 16 years of age. In the majority of these cases the immediate cause of delinquency was an automobile flirtation. For this reason parents throughout the land should be warned against the perils of promiscuous automobile riding on the part of their daughters. This can not be urged too strongly.

"People are known by the company they keep. If a man tells me he is a good man and I want additional proof,

I need only go to the persons with whom he associates. No man goes to ruin alone; he always takes someone with him.

"Sin Contagious"

"The companion of the fool will be destroyed. Sin is catching; it is contagious. It spreads like the ripples on the surface of a lake, caused by the throwing of a stone. I care not how strong your character may be, associate with criminals, bank robbers, murderers and you will become one of them.

"The desire to be beautiful is God like and the attempt to improve on that nature has done for you is in the with what God would have done if he could have had his way in the making.

"In talking with the superintendent of the Ohio Industrial Home of Girls, I asked him why so many girls in the institution had gone wrong. His answer was:

"Because of a desire for fine things that they do not have the money to buy."

Low Wage Curse

"The curse of the average working girl today is the low wage she gets. Her investigation throughout a number of large cities as to the cause and cure of immorality among young women reached the conclusion that the low wage is the chief factor in the trouble.

"Take a girl at \$6 a week when she's paid her board and room and washing and street car fare how much could she have left to clothe herself? The world knows very well that the girl can't sport a \$15 ostrich feather on her hat at \$6 a week.

"The final responsibility comes right back to the parents in the home. The father who carries a flask can expect his son to do the same thing. The mother who turns her children into the street while she goes to spend hours in alleged shopping can not expect her children to be different than their companions."

JOHN H. DALY, 66, DIES OF BRIGHT'S DISEASE

Death Follows Illness of Eleven
Months; Funeral To Be Held
Wednesday

John H. Daly, 66, died at 12 o'clock Sunday noon at his home, 325 Holmes-pl. His death followed an eleven-months illness of Bright's disease.

Mr. Daly was born at Niagara Falls, July 4, 1869, the son of Kathryn Burke and John Daly, both originally of Ireland. He was married to Margaret E. Shoney, also of Niagara Falls and has made his home in Marion for four years. He was employed as a farmer.

Surviving are his widow, two daughters, Zelma and Hazel at home, four sons, Fred R. Daly of Youngstown, Ohio, C. Daly of Knox, Ind., Lester S. Daly of Gallon and William H. Daly, at home, one sister, Mrs. Alice Messenger, 299 E. Edwards-st., and one brother, James Daly, 426 Main-st.

Funeral services will be held at 10 o'clock Wednesday morning at the home, 325 Holmes-pl. and at the Wesley M. E. Church of which he was a member, following. Dr. J. D. Darling, pastor of the church, will officiate. Burial will be made in Calvary Cemetery.

You Don't Need Quinine for Colds

It quins gives you racing head, buzzing ears, upset stomach, and skin blotches, why take it? Laxa-Pirin contains no quinine, and you really want prompt relief, there is nothing like it. You can feel it doing the work—it's a wonder for quick results. This is the original Aspirin Combination for colds, grippe and headache. Thousands have used it for years. The prompt and pleasant way to end colds. 25c.

THE MARION STAR

THE HARDING PUBLISHING CO.,
Owner and publisher of the Marion Star and Marion
Evening Tribune, consolidated, September 24, 1920, under
the name of the Marion Star.

Founded 1877. Reestablished 1884.
Entered at the Postoffice in Marion, Okla., as
second-class matter.
ISSUED EVERY AFTERNOON, EXCEPT SUNDAY.
Marion Star Building, 135-143 N. State St.

Single Copy 2 cents
Delivered by Carrier 15 cents
By mail in Marion and adjoining counties, year 14.00
Beyond Marion and adjoining counties 15.00

Persons desiring the DAILY STAR delivered at
their homes can secure it by postal card request,
or by ordering through telephone 2314. Prompt con-
sideration of irregular service is requested.

STAR TELEPHONE.
Can 2314 and ask the Star exchange operator
for the department you want.

MONDAY NOVEMBER 15, 1920

Star subscribers will greatly facilitate postal
delivery service by making all complaints to
the business office, not to carriers. Phone
2314.

Daily Proverb—"Friendship is the most
sacred of all moral bonds."

Loss of sleep is said to stimulate the brain,
but that isn't what causes the headaches the
next morning.

As Mr. Trotsky may have perceived by this
time, soap-box oratory is on a falling market,
even over in Bolshevik Russia.

However, Astrid may not be so indiscreet
as assumed. It may be noted that she hasn't
yet served Leopold anything with mayonnaise.

With all due respect to Queen Marie, and we
esteem her one of the very finest women of
our day, we have to confess that she has been
mighty unfortunate in some of her American
acquaintances made before she came over.

The abolishing of billboards up in Canada
will not make so much difference now. About
all the Americans who go up there know
where to get it now.

If the Dolly sisters are able to collect their
judgment of \$18,000 against the management
of the Moulin Rouge they should tip off
Uncle Sam to their method. He has been
singularly unfortunate in the matter of
making collections in France.

While one gang out at Herrin was using
machine guns mounted in armored cars to
shoot up homes of members of the other, ad-
herents of the latter gang were using an aero-
plane from which to drop bombs upon the
"fort" of the former. And yet we send marines
to preserve order in Central American and
West Indian lands!

Mayor Dever, of Chicago, is reported to
have said that he is satisfied that the Windy
City chief of police "is doing the best he can
with the tools that he has to work with." One
suspiciously inclined might take it that the
mayor hasn't an overly high opinion of the
Chicago police.

In case Almee Semple McPherson accepts
that movie offer to produce the story of her
life we wonder if any little incidents as Carmel
by the Sea will be screened.

Commenting on the statement attributed to
her mother, that Princess Diana must marry
for love, the Houston Post-Dispatch remarks
that "that is what her brother Carol did, and
look what happened to him." Colonel Bailey
may mean well, but he has his facts badly
twisted. That's what Carol wants to do, but
his wife won't let him.

A St. Louis paragrapher says Clarence Dar-
row insults his audience, telling people they
are dumbbells. Clarence probably figures that
people who will give up good money to hear
him talk can't be very well educated, and the
way it strikes us is that his conclusion is a
decidedly apt one.

It might be well were all these congressional
friends of the plain people, who are bewailing
the added burden of the "practically free" trans-
portation of the Roumanian queen may put
upon the poor, overburdened taxpayer, gotten
together in a stockade and given a little pri-
mary instruction regarding the value of al-
vertising.

There is always the streak of silver in the
stormcloud, and possibly Emmanuel appreciates
that fact when he steps to realize that
so long as Mr. Mussolini is around it's hardly
probable that anybody is going to go running
after anything so utterly inconspicuous as a
mere king.

The Desire for Possession.

Word comes from Professor Reiser and
Lieutenant Commander Wheeler in charge of
the Harvard university and Boston museum
expedition which has been excavating in
Egypt that inscriptions have been found, trans-
lated and verified which show that the
wonderful tomb which they discovered last
year at the base of one of the great pyramids
is that of Queen Hetepheres, the mother of
Cheops, but that she was originally buried at
Dahshur, but her grave having been despoiled
by vandals and many articles of great value
removed, they were deposited in the tomb of
the great pyramid at Gizeh which has been named
after her.

Cheops, or Kufuh, reigned in the fourth
dynasty from 2800 to 2700 B. C. That would
mean something like 4,600 years ago. Con-
sidering all we have read during the last two
or three years regarding the researches made
in the Valley of the Kings, at Gizeh, in Mes-
opotamia and elsewhere in the Old world, it's
not at all difficult to figure that humanity
hasn't changed much in some respects during
the passing of the centuries, in this particular
case about forty-six of them.

Possibly the tomb of Hetepheres was rifled
as a result of cupidity, in the hope of securing
articles of great intrinsic value. Today tombs
are rifled "in the interests of science," and
the articles therein are placed in museums for
their "educational value." Still, it's not out-
side the possibilities that the desire for
possession is still actively at work.

Yellowstone Park Threatened.

Sometimes we are inclined to feel that we
Americans are at times too utilitarian for
our own good. Sometimes we feel that we
do not use even ordinary judgment in the
manifestation of our utilitarianism. This
rather thought applies especially to the utiliza-
tion, or lack of utilization, of our water courses
for power purposes. We too often neglect to
use the water power we should and so often
seek to convert into power the water of streams
we should not.

These observations are prompted by the at-
tempt to encroach upon the magic natural
beauty of Yellowstone park. Congressional
authority is sought for a great project on the
Idaho side of the park, which government
engineers hold would work irretrievable dam-
age to the park's beauty and wonders. Very
happily for the preservation of the nation's
great playground this authority was refused
at the last session of congress, but un-
fortunately the campaign of the would-be
vandals under authority of the law have con-
tinued their campaign, and they now claim
that a canvass of the membership of the two
national legislative bodies gives them courage
to predict that the authorization sought will
be obtained at the coming session.

To further the project, Senator Frank R.
Gooding and Congressman Addison T. Smith
were hosts to a congressional junketing party
out in their state during the past summer at
which time, beyond all question of doubt, the
benefits to accrue to great Idaho tracts as a
result of installation of irrigation and power
plants were exploited to the utmost, but it is
to be questioned if the damage the project
would work to the park, were the project to
become an actuality, was similarly empha-
sized.

We said that "happily" congress declined to
give authorization of the project at the last
session. We used the word, happily, for the
reason that the declaration gave time in which
to bring the matter to the attention of the
American people as a whole and arouse added
opposition to the project. The movement of
the Idaho promoters already had the opposition
of the department of the interior when it came
up in congress, and to its opposition has now
been added that of many civic bodies and other
organizations throughout the land, which will
fight to the utmost to preserve the falls and
cascades of the Yellowstone, to say nothing of
the ruination of many lakes of matchless
primal beauty in one of our greatest national
treasures.

In the lifetimes of those of us of today who
have attained middle age, Americans have ex-
pended hundreds of millions of dollars—it is
carefully to be questioned if the mighty total
of dollars hasn't run into the billions—to buy
in the Old world the rare in art and the beau-
tiful. So great has been the volume of our
purchases of works of art—paintings, tape-
stries, sculptures—that we have aroused the
antagonism of all Europe. We have not
stopped at this. We have purchased Italian
villas, French chateaux, English manor houses,
chapels in many lands, and brought them back
in part or in whole to America. There has
been no limit to the money, apparently, which
Americans have thus expended or are willing
to expend for the handicraft of man, and yet
some of us seriously contemplate the destruc-
tion of works of nature which for wonder and
beauty surpass any work every accomplished
by man. It is like paying out almost untold
riches for clear and colored glass and throw-
ing away diamonds and emeralds and rubies.

Let us develop our water power. That is
good sense and good business. There are
thousands of rivers and creeks which may be
utilized without exceeding harm, many of them
could be utilized to the scenic improvement of
the surrounding country, but let us not give
up for irrigation or power purposes the most
amazing wonders and beauties of nature to be
found upon the face of the earth.

If the price of grapes should go up another
hundred per cent., or such a matter, Cali-
fornia would be just about unanimous for dry-
ness.

Those in charge of Queen Marie's train
should exercise the utmost care in picking up
passengers hereafter or they may find that the
queen's special has stolen the hat honors of
Mr. Ford's famous Oscar II.

It is said that the senate Democrats are not
anxious for an alliance with the so-called Re-
publican insurgents. Probably they have re-
flected how the Republicans got their fingers
burned by pulling chestnuts out of the fire for
the self-same obstructionists.

The explanation may be that Governor
Nellie Ross lost the vote of the fellows who
had to wait in the barber shops while any-
where from five to fifteen heads were being
bobbed.

Dean Inge's picture has a look like that
of the fellow at the picnic who suspects that
he has been selected as the goat to go to the
farmhouse a mile away and lug back a bucket
of water.

Still, we can hardly complain over the com-
ing of these Hindu "Messiahs" and Oriental
necromancers from time to time. For a good many
years we have been sending over missionaries
to tell them how to live.

It's our guess that the young man who
tried to kick that goat in the million-dollar
game down in Columbus, Saturday, feels like
a pretty good fellow. It is just such miscalculation,
as that which add to the uncertainty of the
game and maintain the interest in the possible
outcome of contests from year to year.

It is predicted that there will be 10,000,000
motor cars in the United States fifteen years
hence, but it will not matter greatly to us true
astronauts of the land. It's hardly probable
we'll last that long.

The proceeds of a solemn tax gleaned from
tourists, mostly Americans, is to be used by
the municipality of Avignon for the restoration
of the mighty "Palace of the Popes," a cable
tells us. That's all right so far as it goes, but
if the French want to make a hit with a lot
of Americans it's up to them to include elec-
tors in the restoration of some of their
old show places.

Bread and Water Punishing.

BY ROYAL S. COPELAND, M. D.
United States Senator from New York.
Former Commissioner of Health, New York City.

Have you been as mauled as I have over the
stories of the Nebraska judge who sentenced his
prisoners to a bread and water diet?
The judge had more printer's ink spilled in his
behalf and in condemnation than anybody else
up to the beginning of the political campaign. He
has been pictured as a martyr, as a cruel monster,
as well as a just and capable judge.
I am not interested in the sordidness of the man
and, or the wretchedness of his expense. I am
interested in the scientific aspects of the question
involved.

Cruel and unusual punishments are prohibited by
the constitution of the United States. Is a sen-
tence to a diet of bread and water for a week or
ten days a "cruel and unusual" punishment?
It is absurd. It must be admitted, but, in my
opinion, it is not cruel.

If I were a judge I wouldn't impose this sen-
tence upon any prisoner at the bar. However, I
am confident its execution will do no harm to a
fairly added-bellied person.
There are many well authenticated instances of
total abstinence from food for periods of twenty-five
to fifty days. My recollection is that Mayor
McSweeney fasted for a longer period than this.
If life is preserved for so long a period without
any food at all, why should we worry over the im-
position of a short sentence imposing a daily diet
of water, plus all the good bread the stomach will
hold?

If I could select the kind of bread, I would be
willing to accept with complaisance a diet of bread
and water for a limited period. Modern bread is
made with milk. If milk is the sole liquid ingredi-
ent used in the bread, the product becomes a com-
plete food.

In all probability a man could live on such bread
for six months or a year. The health would not
suffer and, while there might be complaints as to
the monotony of the diet, the prisoner would be
well and happy.
I have seen a report made by the nutrition
laboratory of the American Institute of Baking. Re-
ferring to milk bread it is stated that they "fed
albino rats this bread as their sole diet over a period
of twenty-six months, which corresponds in the
human from babyhood to old age."
Bread is indeed the staff of life. I wish we
could get everybody to eat more bread, made of
wheat, and enriched with good milk. Such bread is
one of the very best of foods and should be found
on every table.

ANSWERS TO HEALTH QUERIES

D. D. Q.—What is the best method of improving
the circulation of the blood? Will it aid in bringing
the weight up to normal?

A.—Improve the health in general and the cir-
culation will also benefit. Yes. For further par-
ticulars send a self-addressed, stamped envelope and
repeat your question.

S. G. Q.—Would an X-ray determine whether or
not the heart is enlarged?

A.—What will reduce high blood pressure of a short
duration?

A.—What should a boy eighteen years of age, six
feet tall weigh?

A.—Proper diet and general care. For full par-
ticulars send a self-addressed, stamped envelope and
repeat your question.

A.—He should weigh about 126 pounds.

MRS. A. Q.—What is the cause of pains and
tenderness in my stomach after eating?

A.—This trouble is more than likely due to in-
digestion. You should eat only the simplest kind
of food. Diet and proper elimination will correct
your condition. For full particulars send a self-
addressed, stamped envelope and repeat your ques-
tion.

S. R. Q.—Which foods contain protein besides
meat?

A.—Nuts, cheese, milk, and some vegetables.
Copyright, 1920.

Dr. Copeland will answer for readers of this paper
questions on medicinal, hygienic and sanitation sub-
jects that are of general interest. Where the subject
of a letter is such that it can not be published in
this column, Dr. Copeland will, when the question
is a proper one, write you personally. If a self-
addressed, stamped envelope is enclosed, address
all inquiries to Dr. Royal S. Copeland, in care of
this office.

Just a Bit Vindictive.

While we have rejoiced as a reformer, we intend
to continue to be a dry as we believe we can tear
our former lawless and professional associates in
the reform industry more easily from that position.
—Ohio State Journal.

Speaking of Definitions.

The Lewistown Journal wants a definition of a
"humanitarian issue." It is the issue that looks most
like a winning one. —Detroit Free Press.

Save us, O God of one salvation,
and gather us together, and deliver us, that
we may all thank you, O God, for your name.
—1 Peter, 1:10-12.

Prayer: O God, the Lord, the strength
of our salvation, Thou hast covered us
with the robe of Thy love.

OLD RELIABLE.

Paraphrased Bull's-Eyes.

Great Field Against Him.
The Devil may be the biggest liar in Los Angeles,
as Almee says, but he certainly has some strong
competition there.—Columbus Dispatch.

Where Money Is Close.
It's always a good town "if the paying teller doesn't
run to the books every time you push your check
through the window."—Little Rock Democrat.

"It Can't Be Done."
They are now trying to prove that Adam was a
Frenchman. Oh, no. He did give up a rib, you
probably remember.—Chicago Herald and Examiner.

No False Pretenses About Them.
The Borgias poisoned a lot of liquor, according
to reports, but they didn't pretend they were doing
it to enforce a prohibition law.—Fort Worth Star-
Telegram.

Giving Nature a Show.
Canada is abolishing billboards. Natural scenery
may yet be given a chance to display itself, at
least on the other side of the border.—Louisville
Courier-Journal.

They Simply Won't Die.
An army mule fell into a pit in Panama a while
back and survived forty-seven days. Showing that
army mules are just too damned obstinate even to
die.—New London Day.

Cruel and Unusual Punishment.
"Now, Willie," said the teacher, "if you aren't a
good boy I'll make you stay after school and learn
the names of all the presidents of France since 1925."
Zanesville Times Recorder.

Reduces the Defense Somewhat.
The only difference, if any, which will notice be-
tween a publicity man and a public relations counsel
is that the latter, possibly, does his lying in a little
better English.—Ohio State Journal.

Beyond Human Understanding.
Americans are very obliging and will undertake
to explain anything a foreign queen may want to
know about our dear country, except the names
on the Pullman cars.—Detroit News.

Two Well-Defined Classes.
It will not be long until congress will again be
in session and Washington city will be full of the
two types of men Woodrow Wilson referred to—
those who swell and those who grow.—Canton
News.

Something Has Happened.
The fact that Senator Thron Johnson has not
yet announced his presidential candidacy may lead
support to the president's claim that the recent
elections were a Coddage victory.—Des Moines
Register.

The Verdict Is In.
No need to ask a lot of folks what they think
about having to register every year. The great
number who stayed away from the polls recently
showed what they think about it.—Youngstown
Vindicator.

Strong and Durable, of Course.
Either the books they distributed around hotels, or
the books are not subject to very hard usage—they
always seem to be in good condition.—Wilmington
News-Journal.

They Certainly Are Some Politicians.
"From behind a closed window came the pen-
etrating aroma of his 'right'" informs the authors
of a new novel. Like enough the poor cuss had got
told of one of these here old renascence five-
centers.—Columbus Citizen.

Some Questions of Interest Asked and Answered.
Q.—What having champions have been dethroned
this year? L. G.
A.—They are Harry Grah, Mickey Walker,
Berlenbach, Rocky Kansas and Jack Dempsey.

Q.—What percentage of the population of the
earth is of the civilized races? D. A. H.
A.—About one-sixth of the earth's population,
comprising all of the United States and Ten-
nessee races, is civilized.

Q.—Do horses differ in degrees of intelligence?
J. D. U.
A.—They seem so. An intelligent horse
shows considerable wisdom between the eyes,
which are very prominent. A stupid horse is
narrow between the eyes.

Q.—Were many "mad" men soldiers? Brought to
the United States? D. J.
A.—The only one who was the one who was buried
in the "Unknown Soldier" in Arlington
cemetery.

Q.—Does the last one in a gathering at Dover at
Cape Girardeau, E. L. H.
A.—The United States coast and geologic
survey says that the tide at Cape Girardeau, Mo.,
France, about one hundred years later than at
Dover, England. The mean range of the tide
at Cape Girardeau is approximately 10.5 feet
and at Dover fifteen feet.

Q.—What do squirrels eat? A. B. F.
A.—The food of squirrels is a well-stored
includes, according to the time of the year,
nuts and seeds, buds, mushrooms, insects, most

The Way of the World.

BY GROVE PATTERSON.

Texas grew fifteen per cent. more turkeys
this year than last. As November 25 ap-
proaches, that is out of the pleasant facts to
be thankful for. In this day of widely-dis-
tributed comfort and soft living one marvels
that the Pilgrims, climbing the bleak hills of
Plymouth, and gazing out on a bleak sea,
had courage and character enough to be thank-
ful. And yet our Pilgrim forefathers are some-
times accused of having been lacking in imagi-
nation.

Tragedy teaches its hard, but useful, lessons.
In the Durham county mining area in Eng-
land the mine strike is still on. Men out of
work have little money to buy food. Every-
body eats less. The result is a striking de-
crease in the death rate. It has dropped to
4.1 per thousand. Doctors say the lack of op-
portunity for over-eating is the reason.

Little news of late is more hopeful than the
item out of Houston, Texas, which records the
awarding of medals to four sheriffs and a
constable. These men met with courage and
loyalty to law, prevented lynchings. The
medals were given by the Commission of In-
ter-racial Cooperation. Constable Carter, of
one Texas county, rescued a man from a mob
—and the man was afterwards found to be
innocent.

Chicago high schools devote a week to ex-
ercises instilling patriotism into the hearts of
boys and girls. Patriotism is an attribute of
the spirit. It can be cultivated. We inherit
some, but we take on more by study and by
thinking. And there can be no true patriotism
without obedience to law.

Stefansson, Arctic explorer, says there are
two kinds of climates: working climates and
leaving climates. Take advantage of cold
waves. A cold wave makes a good working
climate.

When you are inclined to believe that little
things don't count, remember that a new in-
strument for measuring heat of the farther
stars is so delicate that fly wings are used in
its construction. You can see it at the Smith-
sonian Institution in Washington.

Today's Events.

Monday, November 15, 1920.

The new president and vice president of the
republic of Brazil, Dr. Washington Luis
Pereira de Souza and Dr. Fernando Viana, re-
spectively, were inaugurated today.

Agricultural problems will be to the fore in
the discussions at the fourth regional con-
ference of the Chamber of Commerce of the
United States, which opened at Indianapolis
today.

The contest of Henry D. Hummel, of Port-
land, Maine, who claims the estate of the late
"Abe" Hummel, New York attorney, as a son,
is due to come up for trial in New York today.

The Civil legion, composed of the war
governors and representatives of civil organ-
izations that functioned during the World war,
opened its first national convention in Phila-
delphia today.

Fuel experts of the United States and
several European countries gathered today at
the Carnegie Institute, in Pittsburgh, for a
four-day conference on the efficient use of
bituminous coal.

In a special message which Governor Moore
sent to the New Jersey legislature today, he
recommended enactment of statutes to make
handing a crime punishable by life-imprison-
ment, and various measures to speed up the
trial of criminals.

Today's Worst Story.

BY WILL ROGERS

If the output of Scotch may be slumped a
little during the summer and fall, anyhow the
supply of Scotch stories was kept up. I heard
plenty of 'em in Europe, but nothing to the
amount of 'em I hear while traveling around
this country. In the parts where the fewest
Scotchmen live is where they tell the best
Scotch stories. There you can make your
dialect anything you like and call it High-
land. Some of the Highland dialect I've
heard around in Oklahoma and Texas would
look as funny in Scotland as some of the
Scotch whisky they have out there.

One fellow told me about a Scotchman he
met in London. He reminded him of a Scotchman
they had met a year before, at a dinner.
"Ay, ay," says Sandy, "I mind ye now. You
gied me a cigar, an' I have it yet, an' a good
one it is. I still tak' a puff at it whiles of a
Sabbath afternoon, and I fear it'll be all gone,
come next Christmas!"—Copyright, 1920.

Poems That Live.

ABOUT BEN ADHEM.

About Ben Adhem—may his tribe increase—
Awoke one night from a deep dream of peace,
And saw within the moonlight in his room,
Making it rich and like a lily in bloom,
An angel, writing in a book of gold:

Exceeding peace had made Ben Adhem bold,
And to the presence in the room he said:
"What writest thou?" The vision raised its head,
And with a look made all of sweet accord,
Answered: "The names of those who love the
Lord."

"And is mine one?" said Abou. "Nay, not
so!"
Replied the angel. Abou spoke more low,
But cheerily still, and said: "I pray thee,
Write me as one who loves his fellow-men."

The angel wrote, and vanished.
The next night it came again with a great
shaking light,
And showed the names whom love of God had
blessed,
And lo! Ben Adhem's name led all the rest.
—Leigh Hunt.

Q.—What having champions have been dethroned
this year? L. G.
A.—They are Harry Grah, Mickey Walker,
Berlenbach, Rocky Kansas and Jack Dempsey.

Q.—What percentage of the population of the
earth is of the civilized races? D. A. H.
A.—About one-sixth of the earth's population,
comprising all of the United States and Ten-
nessee races, is civilized.

Q.—Do horses differ in degrees of intelligence?
J. D. U.
A.—They seem so. An intelligent horse
shows considerable wisdom between the eyes,
which are very prominent. A stupid horse is
narrow between the eyes.

Q.—Were many "mad" men soldiers? Brought to
the United States? D. J.
A.—The only one who was the one who was buried
in the "Unknown Soldier" in Arlington
cemetery.

BURGLARS VERY ACTIVE IN CITY OVER WEEK-END

Two Homes and School Looted; Eight Men Arrested

Four burglaries and a petty theft and arrest for minor violations made up the week-end for the Marion police.

Looting of the First Church, Saturday night, by William Dowler, 445 S. 1st, and Stanley Burrey, 625 E. 1st, and the Olney school building, Sunday morning, resulted in the theft of only a few articles of little value, is believed to be the work of boys.

Take Penalties

Dowler home, according to the report with police today, was burglarized some time between 7 and 9 p. m. Friday night while members of the family were away. The robbers were believed to have used a skeleton key to unlock the rear door, entered the parlor, a gold-plated safety razor and a fountain pen. They gained access to the chest with the Presbyterian Church burglars by taking 50 cents that Mrs. Dowler had placed in a contribution to a missionary fund.

The Burrey home was burglarized

CALENTINO HEIRESS PROTECTS INTERESTS

Picture shows Mrs. Teresa Werner, bequeathed a third of the estate of Rudolph Valentino, motion picture star, being met in Los Angeles by Mrs. George Ullman, wife of Valentino's manager and executor. Mrs. Werner came to protect her interests, following statements that an attempt would be made to break the will.

STATE TAX MAN IS EXPECTED IN CITY TUESDAY

Will Examine Appraisers' Reports on Marion County Real Estate

A representative of the State Tax Commission is expected in Marion Tuesday to examine appraisers' reports of Marion County real estate and buildings.

The reports have been presented to the County Board of Revision and the complete on the appraisal were heard last week by that body.

The tax commission representative will make his report to the State Tax Commission this week and the members of that organization are expected to meet the latter part of the week.

When the tax commission has finished its work the results of the appraisal will be placed on the tax duplicates.

No date has yet been set for the establishing of the tax rate.

Get Marriage Licenses

Three marriage licenses were issued to prospective bride and bridegrooms Saturday afternoon. Those receiving licenses were:

Carl D. Schaller, 26, Ulenia, son of Mr. and Mrs. Harry Schaller and Helen Peter, 21, Marion, daughter of Mr. and Mrs. William Peter.

Harold R. Frey, 20, Wabbe, son of Mr. and Mrs. J. L. Frey and Mrs. Charlotte H. Morten, 19, Marion, daughter of Mr. and Mrs. William H. Morten.

Frank Rasey, 23, Marion, son of Mr. and Mrs. Ira C. Rasey, and Miss Claudine Thacker, 19, Marion, daughter of Mr. and Mrs. Charles P. Thacker.

Held For Hearing

Pete Manley, residing near Crystal Lake Park, is awaiting a hearing on charges of assault and battery filed against him in Justice M. O. Stoll's court by his sister-in-law, Mrs. May Long of this city. Manley was arrested Saturday and will be given a hearing at 4 p. m. Thursday.

LOCAL HUNTERS TAKE TO FIELD AS SEASON OPENS

321 Licenses Issued Saturday by County Clerk Harley E. Koons

Today marked the opening of the hunting season and despite the rainy weather, hundreds of hunters roamed the fields and woods of Marion County in search of rabbits, pheasants and other game.

Long before the first streaks of dawn appeared in the East, automobiles were seen speeding along the highways, carrying groups of men to their special hunting grounds for the day.

Three hundred and twenty-one hunting licenses were issued Saturday by County Clerk Harley E. Koons, bringing the total for the year to approximately 1,575 in Marion County.

Sale of shotguns and ammunition in Marion during the last few weeks has been greater than ever before, local hardware dealers have announced, and the large number of hunters reported throughout the county today uphold their statements.

Hunting licenses were still being passed today to those who were unable to procure their permit last week.

FORMER MARION MAN IS NAMED NEWSPAPER HEAD

W. D. Clark Elected President of Star Publishing Co., Lima

W. D. Clark, formerly of this city, was elected president at the first meeting of the newly elected board of directors of the Star Publishing Co., of Lima, according to word received here.

Other officers are D. W. Morris, vice president, and Harold Smith, secretary and treasurer.

Mr. Clark has a wide circle of friends in Marion who will be interested in his success in newspaper work. He took over the work as general manager of The Lima Star two years ago and in this brief period has built it up to a circulation of around 15,000.

Mr. Clark resided in Marion for a period of 10 years during which time he opened and managed the Columbia Theater located on the site of the Midway Recreation. He later moved to Grand Theater until a few years ago.

DRIVING AGE TO LEAVE MARION EARLY TUESDAY

"Tireless Bud" Feeling His Usual Self Following 110 Hour Ride

"Tireless Bud" Bradley today had regained much of the strength and endurance that he sacrificed last week while engaged in his attempt to drive an automobile for 110 hours without stopping to eat, sleep or rest.

The week's growth of whiskers that decorated Bud's face Saturday and the great black circles below his eyes had disappeared over the week end. He considered that he had paid no attention to early calls for breakfast either Sunday or this morning.

The fact that he was successful in that attempt is now history.

Since he first awakened shortly before seven o'clock Saturday evening from the dead sleep to which he succumbed when the drive was finished Saturday afternoon, Bradley has been flooded with congratulations from his admirers. He was forced to brush aside the dozens that sought to interview him when time came for him to appear at the Grand Theatre at eight-thirty o'clock, very soon in the 114 was filled for the first and second appearance of Bradley, the latter being held at twenty.

"Bud" explained to his audience the rigid training rules, he was required to follow in order to fit himself for the grueling test of the long drive. He paid tribute to Marion business executives co-operating with him in the enterprise and personally endorsed the Standard Six Buick Sedan because of its faultless performance during the drive.

Accompanied by his wife, he will leave Marion early Tuesday morning for Milwaukee, his home city, where he expects to give the Standard Six Buick Sedan and target for the time being his theory that sleep is a nuisance that takes up the time of man's short visit on earth.

The Standard Six Buick Sedan is now being put in A-1 condition at the Hudson Auto Paint Shop and will be placed on display in the showroom at the Marion Buick Co., E. Center-st. The car and the tires, which were furnished by Mapes Rubber Store are to be sold to his highest bidder. Sealed bids will be received at each concern throughout the week.

LEAVES CAUSE TWO FIRES HERE SUNDAY

Fence At Rear of Mrs. C. T. Wiant Home Damaged; No Other Loss

The local fire department at station No. 1 was called twice Saturday night to extinguish fires resulting from piles of leaves becoming ignited. The first call came from the rear of the home of Mrs. C. T. Wiant on St. State-st., where burning leaves had set fire to a fence. The second alarm was received about 11 o'clock from Sharpless-st. where an accumulation of leaves had become ignited and was threatening property along the thoroughfare. It is believed that a lighted cigar or cigarette stub carelessly dropped into the refuse had started the blaze.

The fence at the rear of the Wiant property was damaged to the extent of about \$10 and there was no damage from the Sharpless-st. blaze.

MRS. TERZO IMPROVING
Mrs. Mary Terzo, 490 Avenida-lea, who underwent an abdominal operation at City Hospital recently, is reported improved today.

MOSIER BOY BETTER
Charles Mosier, son of Mr. and Mrs. Frank Mosier, Park-bld., is reported improving of injuries received when he was struck by an automobile recently at City Hospital today.

UNDERGOES OPERATION

REPORTED IMPROVING
M. C. Marmion of Springfield, who underwent an abdominal operation at City Hospital Thursday is reported improved today.

HERE'S MORE ABOUT HALL-MILLS TRIAL

STARTS ON PAGE 1

her of her love for the pastor and of his love for her and said that as soon as her daughter, Charlotte, was out of school, that she and the pastor were going to run away to Japan.

"Way to Japan?" asked Simpson.

Said She Loved Him

"Well, Reverend Hall liked Japan and he wanted her to see it."

Charlotte would have been out of school a year after the time Mrs. Mills told of her planned elopement, the witness said.

"What word did she use in describing her state of affection for Dr. Hall?" Simpson asked.

"She said she loved him," Mrs. Barnhardt replied.

"Eleanor said she didn't care who knew about her affair with Dr. Hall," she wasn't hiding anything from anybody," Mrs. Barnhardt said.

She told of an auto trip at which "Mrs. Hall became very angry."

"We had several automobiles and were going to Boundbrook," she testified.

"Reverend Hall helped Eleanor into the car in which I was sitting, and she was nearly but she walked away and didn't want to get in the same car with my sister."

"But Dr. Hall got in with Eleanor and we drove on. Mrs. Hall got in another car. She didn't like it at all," Mrs. Barnhardt told of another incident in the church of St. John the Evangelist.

Said She Didn't Care

"I went there to a book for Eleanor and reached the study," the witness said. "I called, 'Eleanor,' and Dr. Hall came out and said, 'She's in the church dining.' A minute later she came out flushed and excited and her hair was all mussed. It looked as if her hat had been pulled down over her head. Then I knew they were in love. Dr. Hall then went out and got some cigars and soda for us."

"I told her she was a little unwise in being so bold about her love affair," said Mrs. Barnhardt. "It was then she told me she didn't care what the people thought."

"How long before the murder did she say this?"

"About seven or eight months before the murder. It was when she came to my house to spend the night and was going the next morning to meet Dr. Hall in New York to go to a show."

"What show?"

"Shuffle Along."

Sensation Created

A mid sensation was created at the trial today when it became known that the charge was made by Charlotte Mills that Robert H. McCarter, chief counsel of the defense, had talked with one of the jurors.

She gave her information to two state troopers, who informed Special Prosecutor Alexander Simpson.

McCarter told International News Service this morning as court opened that he did talk to the juror, Edward Tillman, but not until Tillman came to him during the noon recess Saturday.

"I was standing at counsel table," said McCarter, "when Juror Tillman walked over to me and asked me where he could find the juror as he had just received word that his brother had died and he wanted to see if he could get away to visit his brother's home."

"I told him where he could find the juror. That was all there was to the incident. There was no initiative whatever on my part."

Ridiculous, Claim

Asked if there was a possibility that a mistrial could be declared, McCarter replied:

"Ridiculous. Why a dozen or more persons saw the incident."

Women made up the audience in court today for the most part. Almost every seat was taken when the defendant, Mrs. Frances Stevens Hall, and her two brothers, Willie and Henry Stevens, filed in.

Juror Tillman was called from the jury box by Judge Charles W. Parker and they held a whispered conversation for a few seconds. The juror then returned to his seat.

James A. McKeever, Hudson County court stenographer, the first witness, testified that he took notes and correctly transcribed a statement made in Somerville to the authorities by Bagart P. Conking, formerly sheriff of Somerset County, with relation to conditions found at the murder scene by Conking four years ago.

Letters To Be Read

Tender, passionate love letters that the romantic Mrs. Mills wrote to her

NAZARENE CHURCH OPENS EVANGELISTIC SERVICES

W. R. Cain Delivers First of Sermon Series; Large Congregation Attends

Reverend W. R. Cain, Wichita, Kan., delivered the first of his series of evangelistic sermons Sunday morning at the First Church of the Nazarene.

The opening service was presided over with a 24-hour greater service at the church.

The church was filled to capacity at both the morning and evening meetings and it is expected a large attendance will mark the services which will be held each night until Nov. 28.

Just how the burglars effected entrance is not definitely known, although Charles C. Nash, custodian of the edifice, is of the opinion that they entered through a window leading into the basement kitchen. There are marks on the window sill and a table standing near it which indicates that the men came in that way, he says.

Another theory is that the burglars hid in the church early in the evening and carried out their operations when the coast was clear.

The Sunday School orchestra held a rehearsal early Saturday night, leaving about 8 o'clock, when L. R. McNeal, director of the orchestra, looked all of the doors.

Discovered by Janitor

The burglars were not discovered until about 5:30 Sunday morning when Mr. Nash, the custodian, arrived to prepare the premises for the day's services. In accordance with his usual custom, he started to make the rounds of the building to examine the thermometers and ascertain the temperature. His suspicions were first aroused when he found that a mirror which had been hanging on the wall of the primary room next to the thermometer was missing. He then discovered that the linen closet in the same room had been emptied.

Bottle, Empty

Mr. Nash at first surmised that boy vandals had committed the depredations but changed his mind upon finding evidence that more experienced rogues had been at work.

A bottle that had contained grape juice used for communion was standing empty on the piano, the contents having been taken by the intruders.

Mr. Nash went to the pastor's study to notify the police department and turning on the light found the rug gone from the floor of the room.

Officers from the police department responded to the call from Mr. Nash and obtained a list of the stolen property in addition to making a thorough search of the premises. There is a complete absence of any clues, police stated today.

HERE'S MORE ABOUT CANCER GERM

yield to the anti-toxin in a large percentage of cases; in the more advanced cases, when the main growth is surgically removed, the metastases or spreading effects of the disease will usually disappear with anti-toxin treatment; in cases where the disease is widely disseminated, little is to be expected from any form of treatment, although it is found that many of the distressing symptoms are often alleviated by the use of the anti-toxin. This, according to clinical reports, is especially shown by the relief of pain, cessation of offensive discharges and the clearing of mental confusion and lethargy.

See Future Cure

Dr. Glover concludes further that best results are obtained with cases treated in institutions where they may be kept under constant observation and given the necessary attention.

Other doctors conducting clinics are: Dr. Julian London, M. R. C. S. E., A. C. P., chief physician St. Michael's Hospital, Toronto, and associate in medicine, University of Toronto; Drs. James M. McCormack, Howard and Danville, Toronto; Drs. Warrmouth and Danville, Philadelphia; Dr. H. R. Kutz, Cleveland; Dr. James P. Kerr, Pittsburgh; Dr. John E. White, Malone, N. Y.; and Dr. M. J. Scott, Butte, Mont.

In their reports, these doctors express the belief that the Glover discoveries have opened the way for what they believe to be the permanent cure of cancer.

The Warmth-Donnelly clinic is

HERE'S MORE ABOUT CHURCH BURGLARY

STARTS ON PAGE 1

making up the last of this list, were taken from the janitor's supply room. There is possibility that other articles are gone but this will not be ascertained until a complete check of the church property has been made.

Overlook Articles

For some reason, the burglars failed to take a Hoover electric sander, stored in the same closet, from which the other sander and the musical instruments were taken, and also overlooked a mimeograph and a typewriter in the pastor's study.

Just how the burglars effected entrance is not definitely known, although Charles C. Nash, custodian of the edifice, is of the opinion that they entered through a window leading into the basement kitchen. There are marks on the window sill and a table standing near it which indicates that the men came in that way, he says.

Scott, Butte, Mont.

In their reports, these doctors express the belief that the Glover discoveries have opened the way for what they believe to be the permanent cure of cancer.

The Warmth-Donnelly clinic is

the treatment. In the Army clinic, 60 patients suffering from cancer in its most advanced and advanced form were observed and treated. According to the records shown to the International News Service correspondent by one of the doctors, 19 patients died. Of the rest, all but three were recorded as showing improvement, in many cases showing signs of cure.

The actual effect of the anti-toxin, according to clinicians, is to neutralize the toxins of the disease and enable nature to function properly and complete the healing process. Many of the cases treated at the clinics had, according to reports, run the gamut of the X-ray, radium and surgical methods.

Scientists whose research work confirms the microscopic origin of cancer include Young, Philadelphia; Nuzum and Ochsner, Chicago; Gize and Barnard, London; London, Howard and McCormack, Toronto, and others.

Mortality Rate High

Commenting in brochure form on Dr. Glover's work, London and McCormack, Toronto, say:

"We have been able to culture the germ from the blood of cancer cases, which we have investigated. The diagnosis for confirmed by consultations. The clinical work of Glover and his associates shows that an anti-toxin of great value of important and positive operative means has been produced."

Statistics show that the cancer mortality rate is heavy. Cancer gives the average toll per annum in the United States as 100,000. A bulletin of the New York Board of Health shows that in this city, from August 7 to October 30, inclusive, there were 1,735 deaths from cancer, an average of 121 a week, or a grand average of more than 6,000 a year.

Medical history shows that cancer was prevalent hundreds of years before Christ and was treated by Hippocrates 2,000 years ago by cauterizing with hot irons.

WEATHERMAN FORECASTS MERCURY DROP TONIGHT

Sunday Unusually Warm; Temperature Ranges from 68 to 58

Abrupt drop in the temperature for tonight was the forecast of the weather man this morning. Along with the spell of cold weather for tomorrow the rain which started today will continue tonight and tomorrow, giving this section of the country a taste of typical late fall weather.

Snow flurries are in the offing, if the prediction of the forecaster comes true. These will probably not hit Marion before late Tuesday. The temperature is scheduled to drop steadily.

The temperature yesterday ranged between a high of 68 and a low of 58 degrees. A year ago yesterday it was much colder, the cold spell arriving a day earlier than this year. Last year on Nov. 14, the high temperature mark was 53 and the low was nearly freezing, the mercury going down to 35 degrees.

STORM MOVING NORTHEASTWARD

Washington, Nov. 15—A storm of marked intensity central over Lake Superior, is moving northeastward and will cause increasing southeast winds, probably reaching gale force, the Weather Bureau declared today.

Southeast storm warnings were ordered from Delaware to Eastport, Maine.

TAKES FUR COATS

Cleveland, Nov. 15—Thieves who battered their way through a brick wall into the Engel and Peter Fur Store here fled with four coats valued at \$2,000 but left others worth \$8,000, when a burglar alarm brought private watchmen to the scene.

HOTEL MAN DIES

Newark, Nov. 15—Gas Kern, 60, proprietor of the Kern Hotel here, which was burned to the ground in 1914, claiming eleven lives, died here today.

SIX ARE DROWNED WHEN SMALL BOAT CAPSIZES

Group Trying to Escape Houseboat Raid When Upset Occurs

St. Paul, Minn., Nov. 15—Six are dead today and three are recovering from the icy waters of the Mississippi following the capsizing of a small houseboat in which they were attempting to escape a raid on a houseboat.

The known dead:

Michael Hagan, 25, Harriet body recovered; Nick Becker, 25, Ray (Chicago), 28, former St. Paul tradesman, and an unidentified woman.

Missing and said to be drowned:

Charles Randall, owner of houseboat; two others, identity not determined.

All the victims were residents of St. Paul.

When a squad from the St. Paul police dry force attempted to raid the houseboat, the occupants attempted to escape in one boat which overturned a few feet from the dock.

Two men, found in the houseboat, were arrested and a man and woman were recovered from the river by police, were taken to a hospital.

THREE NEW ARRESTS IN BIG COUNTERFEIT RING

Detroit, Nov. 15—Three new arrests made today in connection with a \$1,000,000 a year national counterfeit ring, uncovered by United States secret service agents.

A total of 12 persons have been arrested, eight here; three in Boston, where the counterfeiting plant was located, and one in Pittsburgh.

Others are under surveillance, including women, and other arrests are expected.

WOMAN CRUSHED AGAINST TREE BY AUTOMOBILE

Canton, Nov. 15—Mrs. Nellie Cable, 41, after in the Morris bank here, died at 11:15 o'clock in Audin Hospital as a result of being pinned against a tree by a machine driven by Dr. William T. Patton, of Washington, D. C.

Mrs. Cable was waiting for a car. Dr. Patton says his steering gear broke and he lost control of the machine. He is held on a reckless driving charge while police and Coroner T. O. McQuate are making an investigation.

WALTER BONSEL BETTER

Walter Bonsel, Mount-st., who underwent an operation for appendicitis at City Hospital recently, is reported improving today.

The best umbrella is that which survives all its ups and downs.

Don't Risk Pneumonia By Neglecting a Cold

If you have a cough or cold, don't neglect it during this pneumonia weather. A cough or cold paves the way for pneumonia because it irritates the linings of throat, chest and bronchial tubes, often the lungs themselves, if neglected too long. And it is in these inflamed linings—when a neglected cold has broken down your resistance—that dreaded pneumonia is quickest to start—often proving fatal in a few days.

Don't just dread pneumonia! Take measures to prevent it, by getting rid of a threatening cough or cold immediately—before pneumonia starts to develop.

By its powerful double action, Ayer's Cherry Pectoral quickly breaks up coughs and colds. With the very first swallow you feel its comforting, healing warmth. Quickly and unfailingly it goes straight to the seat of danger, penetrating through and through the irritated membranes. The soothing, healing powers of this hospital-tested

medicine are absorbed by the linings of throat, chest and bronchial tubes just as ink is absorbed by a blotter. This is why Ayer's Cherry Pectoral so quickly stops the cough, drives out the cold and brings sure, lasting relief.

If "pneumonia" has developed, call your doctor at once. If it has not developed, but you have a threatening cough or cold, take Ayer's Cherry Pectoral at once! Keep your throat, bronchial tubes and lungs healthy and strong. At all druggists, 60c, twice as much, \$1.00.

EUCLID VILLAGE POLICE CHIEF IS DISMISSED

Cleveland, Nov. 15—Elihu Hill, police chief of Euclid Village, a suburb, was out of a job today, having been dismissed at a special meeting of the board of trustees from University Heights.

Hill claimed the title had been stripped off when Mayor Charles R. Ely charged Hill had failed to enforce the prohibition law.

SEVENTY-FIVE GIRLS CARRIED TO SAFETY

Three Hundred Dancers Narrowly Escape When Fire Destroys Dancehall

New York, Nov. 15—Three hundred dancers had a narrow escape from death in a fire which early today destroyed a dancehall on Times-st. while a neighborhood hall was in progress. Seventy-five girls, unable to find their way out of the smoke-filled building, were carried to safety by firemen. Five firemen were injured, one seriously, while fighting the blaze.

Approximately 20,000 persons thronged the nearby streets.

A large stock of chemicals housed on the first floor of the building became ignited and fed the flames.

Damage was estimated at \$100,000. The origin of the fire was not learned.

CHILDREN FIGHTING FOR THEIR LIVES

Mother Dies from Effects of Poison She Took Herself and Gave Little Ones

Cincinnati, Nov. 15—Their mother, Mrs. Catherine Boydell, 42, dead from poison she swallowed Saturday after giving them similar doses, four children today were fighting for their lives in General Hospital here.

Mrs. Boydell died yesterday. Her children, whom police say she poisoned before taking the fatal poison herself, are in an extremely serious condition. They are Dorothy, Harriet, Gerard and Margaret, ranging from 14 to three years of age.

HOLD UP AUTOISTS

Frank, of Dayton, and A. E. Frank, of Chicago, reported to police that their machine was crowded to the side of the road late last night near Cincinnati by a machine containing four highwaymen, who obtained only \$22, owing to the fact that Mrs. Frank dropped her purse and diamond ring on the floor of the auto.

Pain is so often unnecessary

SUFFERED WITH PAIN IN NECK AND SHOULDERS

After three days' home treatment got complete relief

Following a severe attack of rheumatism, a New York girl suffered days with excruciating pain in neck and shoulders.

"After trying everything else," writes, "my mother persuaded me to let her apply Sloan's Liniment, after three days I felt no further pain."

It is amazing what Sloan's will relieve pain. This is because doesn't just deaden the nerves, stirs up the body to throw off cause of the trouble.

Apply gently without rubbing. Instantly it sends a healing tide of new blood to the place that hurts just a few minutes the pain stops, pleasant and easy to use too. 60c bottle today. All druggists—35c

WICHITA GIRL RECENTLY MADE WHISTLING QUEEN

Miss Helen Steele, Wichita, Kan., is newly crowned queen of the Whistlers of the Southwest. Whistlers from four states competed at the Kansas Livestock show. Miss Steele won with "The Glow Worm."

the ground the senate had no control
over primaries in the states.

The attitude of several prominent
Republicans in denouncing slash funds
has done much to turn sentiment
against Vare and Smith.

Pershing Adds to Fire
"Old guardmen" were shaken first
when Theodore Roosevelt took to the
stump to attack slash funds and their
users. A far greater shock came only
a few days ago when General John J.
Pershing criticized lavish use of funds
in campaigns.

The Pershing statement incidentally
has given fuel to Senator George W.
Norris, insurgent leader, who cam-
paigned against Vare in Pennsylvania.
Norris declared Pershing's utterance
was an endorsement of his own doctrine
that the use of slash funds meant the
auctioning off of public offices.

It was Pershing who said: "If the
time ever comes when public officers
can be virtually bought and sold, either
directly or indirectly, then the down-
fall of the republic will not be far off."

CORONER ASSERTS HEAD OF HOME TOOK OWN LIFE

Tulsa, Nov. 15.—A coroner's jury to-
day returned a verdict of suicide in con-
nection with the death of Edwin Brown,
60, superintendent of the Miami Chil-
dren's home.

Brown's body was found in his home
late yesterday by his wife and daugh-
ter. A pistol, with one discharged
bullet, lay nearby.

Brown formerly was head of the
state industrial school and has been
prominent in state politics for many
years.

DRIVER STAGGERS AWAY AFTER AUTO PERFORMS

Cleveland, Nov. 15.—Follow here to-
day, sought a motorist, whose car
emerged into the curb, knocked down
two lamp posts and crashed through
the doors of a branch bank. The driver
staggered away, apparently unharmed,
leaving the wrecked machine stuck in
the doors of the banking house.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Persistent coughs and colds lead to
serious trouble. You can stop them
now with Creomulsion, an emulsified
creosote that is pleasant to take. Creomulsion
is a new medical discovery with
two-fold action: it soothes and heals the
inflamed membranes and inhibits germ
growth.

Of all known drugs, creosote is re-
cognized by high medical authorities as
one of the greatest healing agencies for
persistent coughs and colds and other
forms of throat troubles. Creomulsion
contains, in addition to creosote, other
healing elements which soothe and heal
the infected membranes and stop the
irritation and inflammation, while the
creosote goes on to the stomach, is ab-
sorbed into the blood, attacks the seat
of the trouble and checks the growth
of the germs.

Creomulsion is guaranteed satisfac-
tory in the treatment of persistent
coughs and colds, bronchial asthma,
bronchitis and other forms of respira-
tory diseases, and is excellent for build-
ing up the system after colds or flu.
Money refunded if any cough or cold is
not relieved after taking according to
directions. Ask your druggist. Creomulsion

Before You Buy Your Thanksgiving Range be sure to see Marion's two most Popular stoves—at Schaffner's. TAPPAN—GARLAND

The New 45th Anniversary
Tappans are here!

Many Important Improvements.
Prettier Designs!

In the New Model Tappan you will find all of the things
which have made Tappans the favorite of good cooks for two
generations—Tappan beauty, Tappan convenience, Tappan
economy and durability—all of these are there, together with
an entirely new oven design which eliminates the uncertainty
of baking. No matter where pans are placed in the oven, the
Forty-fifth Anniversary Model bakes equally well. Uniform
temperatures throughout imparting a golden brown crust to
both top and bottom on baked things. The square construc-
tion of the oven burner, with its downward flame, and the
cast iron oven bottom insure even heat for proper baking at
all temperatures. The round cornered oven tray is enameled
and is easily lifted out for cleaning. In all white models the
oven linings are enameled. The close woven broiler rack
holds twelve slices of toast.

The experience of nearly half a century is massed in
the NEW TAPPAN FORTY-FIFTH ANNIVER-
SARY MODEL. By all means, see it.

Stanford, Alabama and Notre-Dame are Big Three of Football Today

BY DAVIS W. WALSH

New York, Nov. 15.—Stanford, Alabama and Notre-Dame are the big three of football today. The three teams are the only ones in the country that have won more than one game in the Big Ten conference.

Add to this fact that the three teams are the only ones in the country that have won more than one game in the Big Ten conference.

Stanford, Alabama and Notre-Dame are the big three of football today. The three teams are the only ones in the country that have won more than one game in the Big Ten conference.

Patsy's Patter

Gossip and Gossip in the World of Sport

By Pat Murphy

OUR private guess that Ohio State would beat Michigan in the game which was played at the Ohio Stadium, Nov. 14, was a good one. Michigan 17, Ohio State 10. What a heartbreaking score for the Buckeye athletes. Michigan kicked the field goal in the final minutes of the game, and even played at the Ohio Stadium, which was witnessed by the largest crowd ever gathered for the playing of a football game. Ohio State lost, but the team covered itself with glory in the losing.

OUR other prediction on the outcome of Saturday's football game was a little bit better. We thought that Notre Dame would beat the Army, and she did. Maryland's great run of 62 yards for the only touchdown of the game and the Irish team from South Bend very near the position where they can claim to have won a national championship all themselves.

OCCASIONALLY, loyalty gets an athlete "in trouble." To show his appreciation of the chance to brush Harry Wills from his position as leading contender for the heavyweight crown, Jack Sharkey signed a contract with Promoter Lambert Fagan to appear only under his auspices during the winter months. Now Fagan finds himself without a place to put on indoor shows, and Sharkey will have to break his agreement and fight for other promoters, or remain idle until the sun is shining on both sides of the street.

TODAY'S the day the plumed goes out to make life miserable for Bre'er Rabbit. An accurate check-up of licenses issued for the opening of the hunting season shows that there are plenty of hunters for every rabbit. The stories of the big game we almost will put the best fish stories in the shade for the next few days.

THE winter season will see at least eight fights in which championships will be involved. All but the two biggest titles will be at stake in battles during the indoor season. To start the ball rolling, Chick Sugars of New Bedford, Mass., and "Humpty Boy" Finnegan of Boston will meet tonight in the first round of a three-round struggle to decide who will wear the crown of featherweights. The winner of this fight will meet Benny Bass of Philadelphia. The winner then will be recognized as the boss of the featherweights until he is knocked off.

A junior lightweight battle is scheduled for Madison Square Garden Nov. 19, between Tod Morgan, champion, and Carl Duane.

Then on December 3, at Chicago, Mickey Walker, erstwhile king of the waterweights, will try conclusions with "Tiger" Flowers, middleweight champion.

Sammy Mandell, recognized as light-heavyweight champion is to meet Billy Petrella of Fargo, N. D., at Newark, N. J., later in December.

If Charley Ebbel Rosenberger can square himself with the New York Athletic Commission, he will meet Bushy Graham of Utica at the garden this winter, possibly on Jan. 6.

Other championship bouts in the making will pit Phil Elv at Barba against Grand-Thurs-Fri-Sat.

Shelby Beats Mansfield, Takes Lead in N. C. O.

Six Teams in League Have Chance To Tie for Title Before Season is Closed

Harding High Has Chance To Come Through Next Saturday, When Shelby Is Met on Local Gridiron; Galion To Meet Bucyrus Eleven

SHELBY High's football team is "sitting on top of the world." At least, that's the way the Shelby footballers feel as they look down upon all others in the North Central Ohio League from their perch on top of the association ladder today.

Shelby took that exalted position late Saturday afternoon when it downed the highly-touted Mansfield ensemble of football laborers by a score of 6 to 0 on the Shelby gridiron, before a crowd that numbered close to 5,000 persons.

With two more grid battles to fight, Shelby warriors lead the league with three victories and a single defeat, while the lads from the Richland County seat trail in second place with three triumphs, one downfall, and an even break.

Mansfield has only one more opponent to meet, and that opponent is one of the strongest teams in the league, Ashland. If any odds are given on the game, Ashland will get them. Shelby, on the other hand, has Harding and Bucyrus to defeat to close the pennant.

And, lest we forget, the little old fighting squad from Marion is up and coming, ranking on even terms with Ashland with two victories, a couple of defeats, and a tie. And there's the Galion outfit, sitting in third place and ready to take an upward jump next week when it meets Bucyrus.

All Got a Chance. Every team in the league except Delaware has a chance to at least tie for first place. With numerous upsets at the door, bucking witnesses so far this season, few persons will take a chance in predicting the outcome of the race.

Shelby's wonderful aerial attack was the cause of Mansfield's downfall Saturday, in what may prove to be the deciding game in the pennant race. Late in the third quarter, Yetzer, Shelby's quarterback, dropped back and heaved the oval 20 yards to Berber, right end and captain of the Shelby outfit, who leaped into the air and came down with the pigskin on Mansfield's 23-yard line.

Seaton, fullback on the grid machine of the league leaders, race around end and through Mansfield's line on three plays.

Elly Clark of England, and Pete Latzo, who took the better honors from Walker, against Joe Dunlap of Baltimore.

No match is now in sight for Jack Dunlap's light heavyweight crown; nor is it likely that Gene Tamey will risk his newly acquired heavyweight honors until the outdoor season is again with us.

A \$50,000 pitcher from the sand-robin (think he grabbed off last week when he acquired Norman Pitt, formerly of Kenosha, Wis. Pitt had formerly been a Robin, but had jumped a contract, and was on the suspended list.

Week he was released by Commissioner Landis, and Robble thinks he will be a big winner next season.

WEDNESDAY night at Columbus, Wis. Dern of Salt Lake City, and Charles Peterson of Chicago, two of the outstanding challengers for Clarence Danaher's light heavyweight wrestling crown, will meet at catweights. This will bring them out on the mat at about 180 pounds. The result of this match should provide an opponent for DeLund, and it is probable that the winner will be matched with the "human centipede" later in the season. Dern brought himself a lot of glory a couple of weeks ago by dumping DeLund at catweights, and now thinks he has a good chance to trim the old man at 175 pounds. He will find real opposition in the Charles Stedley.

LORAIN LIONS TAKE CONTEST; SCORE, 36 TO 26

Last-Minute Rally Wins Battle After Minard Is Removed

Meeting the roaring Lorain Lions on their home floor, Isaly Dairies basketball team met defeat to the tune of 36 to 26 in the first game of the season, Saturday night.

A last-minute rally, after Minard, Isaly center, had been removed from the game on personal fouls, won the battle for the Lions.

With the score standing 26 to 26 points all, and two minutes to go, Grendow and Faris, Lorain forwards, dropped in two field goals each while Steagall, Lorain center, added with two free throws.

Getting off with a flying start, Isaly led marked up a field goal and two free throws before the Lions realized what it was all about. Steagall started the ball rolling when he calmly dropped the ball in the bucket from the center of the floor.

BATTLE ROYAL. The remainder of the half was a battle royal. On three occasions the score was tied while each team strove to score two more points. The half ended with Lorain leading, 12 to 9.

The second half was featured by the whirlwind playing of Grendow and Faris of Lorain. Neither crew was able to build up a substantial lead until the last minute flash of Lorain called the contest to a thrilling close.

Starting the game with the same lineup that won the Central Ohio championship last year, Isalyes were forced to remove several regulars because of injuries and personal fouls.

Robbins Injured. Robbins, left guard, was compelled to leave the game with injuries when he collided with an iron bar that projected from the bleachers. Minard was removed on persons in the critical stage of the game. All Marion men suffered slight injuries as the result of sliding across the slippery floor into the lower tiers of the bleachers.

It was the first game of the season for the bleachers, and considering the strength of the opposing team and floor conditions, was featured by splendid work on their part.

Phillips, going in for Tschannen at right forward in the second half, played bang up game, dropping in four field goals and a free throw. Perry was backed up a few field goals and four fouls. Appleget, usually a high scorer, had an off day and received only a free throw.

Miller, former Purdue star, playing his first season with Isalyes, relieved Robbins in the first half and was a main cog in the Isaly defense. In fact, Lorain never did solve the light defense of the bleachers. Practically every field goal credited to the Lions was the result of a long shot from the center of the court.

Summary:
Isaly..... G F T P
Tschannen, r. f. 0 0 0 0

MIDGHTS EIGHT TONIGHT
Baltimore, Nov. 15. Roundly Finnean and Clark Sugar, considered as the class of the midweight fighters, will battle for the world's featherweight championship in a ten round bout here tonight.

When You Catch Cold Rub on Musterole.
Musterole is easy to apply and works right away. It may prevent a cold from turning into "flu" or pneumonia. It does all the good work of grandmother's mustard plaster.

Musterole is a clean, white ointment, made of oil of mustard and other fine scents. It is recommended by many doctors and nurses. Try Musterole for sore throat, cold on the chest, rheumatism, lumbago, pleurisy, stiffness, bronchitis, asthma, neuralgia, congestion, pains and aches of the back and joints, sprains, sore muscles, berms, chilblains, frost-bitten, etc. of all sorts.

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

ALL-AMERICAN GRID CANDIDATES

BY NORMAN E. BROWN

THIS is the day of specialization in football, as in other things. In offering the name of Henry Chaney, Harvard backfield member, as a candidate for an All-American place we take this into consideration, Chaney's claim to fame rests with his trusty toe. He is Harvard's drop kick artist and punter. Because of his great work as a kicker he does not play through the greater part of the games but is called in to stem the opposing tide with a well timed punt out of danger or to chalk up a goal from the field.

Chaney would at least demand consideration in the selection of such reserve material in addition to the regular playing backfield. "All Pennsylvania needs to have a wonderful team is another Rogers," is the way one scribbles the Pennsylvania backfield, the outstanding figure on the Quaker eleven.

He has helped make Pennsylvania one of the greatest scoring machines in the east, to show his offensive worth. He takes the leading role in executing the "magic" plays of the team, in which deception alone makes or breaks the play. In addition to this he is a great defensive player.

HENRY CHANEY

CHARLES ROGERS

LAFAYETTE HALF LEADS ALL EASTERN SCORERS

Lafayette halfback, who ran wild against Susquehanna on Saturday, for 39 days is the high scorer of eastern football, with 102 points. Lane of Dartmouth is second with 81, and Harry Wilson of the Army, who was held scoreless by Notre Dame, is third with 78.

Other leaders are Strong, New York U., 65; Shaughnessy, Colgate, 63; Macken, Columbia, 61; Weston, Boston College, 59; Carr, Syracuse, 50; Spangler, Gettysburg, 50, and Graham, Fordham, 55.

Mike Wilson had made the most touchdowns, 17; Harry Wilson the most points after touchdown, 18, and Hamilton of the Navy, who has kicked the most field goals, 6.

LAFAYETTE LEADING IN NATIONAL SCORING RACE

New York, Nov. 15.—Bentley Shaughnessy by 48 to 0. Lafayette had assumed the lead for national scoring honors in collegiate football today, displacing Georgetown which fell to third place behind Minnesota, which scored 81 points on Butler.

The points scored by the leaders are as follows: Lafayette, 205; Minnesota, 203; Colgate, 200; Vanderbilt, 228; Stanford, 220; Southern California, 216; Alabama, 200; Colgate, 208; Dartmouth, 204; Army, 198, and Syracuse, Pennsylvania and Penn State, 191 each.

HERB JOESTING LEADS CONFERENCE SCORERS

Chicago, Nov. 15.—Herb Joesting, of Minnesota, with a total of 72 points, was leading the pack of Big Ten scoring stars at the conclusion of Saturday's games. Marty Karow, of Ohio State, is second with 60, and Nydahl, of Minnesota, third, with 53 points.

BISHOPS TO EN GRIDIRON SEASON WITH DENISON

Possibility of Tie for T Between Wesleyan-Wittenberg

Delaware, Nov. 15.—Within a Ohio Wesleyan's gridiron will find their cleated shoes, marking the of another football season.

Wesleyan's final game of the year be with Denison university in a Athletic Association contest. Saturday. Whether or not Wesleyan reap its share of Buckeye honors depends on the outcome of tilt and that between Wittenberg and Ohio U. which will be played this evening.

Wesleyan and Ohio are tied for leadership. Wesleyan has won two and tied one, and if Wesleyan should defeat Denison and Wittenberg win Ohio, the Battling Bishops will tie the tie. On the other hand, if Wittenberg loses to Denison and Ohio U. Wittenberg, then Ohio will be leading.

There is a possibility that the present leaders may win and remain tied for the title, but it should lose Wittenberg will be mathematical Buckeye champ and will have lost only one game while Denison and Ohio each will have one and a half.

Wesleyan was the winner of Buckeye title last year, the first of the association's existence. Between halves of the Denison annual Buckeye Athletic association meet will be staged, and Wesleyan, respectively first and place winners of the Ohio conference meet a week ago, are favored, with Cincinnati as a dark horse.

MICHIGAN, NORTHWEST TIED IN BIG TEN

Chicago, Nov. 15.—Michigan Northwestern were tied for first honor in the Big Ten conference when the curtain was run on day's races. Each team has won conference games and lost none.

Neither has played a tie game. State, Illinois and Minnesota are triple tie for second place, having scored two victories and one defeat. The standings:

KING LONESOME, MARY TO LEAVE COUNTRY DEC. 11

Queen and Party Returning Home to Roumania for Holidays

Aboard Queen Marie's Special Train, of Chicago today as the last of her visit in Chicago, Nov. 15—Queen Marie of Roumania, accompanied by her daughter, Princess Marie, and her son, Prince Nicholas, left for Roumania today. A special train took the king across the sea and today began a royal party to Gary, for a tour of the city.

preparing to sail for Europe on Dec. 11. "Come home before Christmas," wired King Ferdinand. The proposed southern tour of her majesty, which was to include North Carolina and Florida, was immediately dropped. After returning to Washington on Nov. 21, the queen will visit Atlantic City on Nov. 25, while Princess Maria and Prince Nicholas are seeing the Army-Navy football game in Chicago. The royal family will be reunited at White Sulphur Springs, N. H., for a short trip to Boston, is planned before her majesty sails for home on the liner Majestic.

Tour Steel Mills

The queen continued her sight-seeing of Chicago today as the last of her visit in Chicago, Nov. 15—Queen Marie of Roumania, accompanied by her daughter, Princess Marie, and her son, Prince Nicholas, left for Roumania today. A special train took the king across the sea and today began a royal party to Gary, for a tour of the city.

Following luncheon at the South Shore Country Club, her majesty visited the University of Chicago. At dinner for the royal party was held at the Casino for tonight. Despite rumors of a conflict between various social factions for the favor of the queen, the entertainment of her majesty appeared on the surface to be progressing smoothly. San Hill, Washington host to her majesty, who was barred from the train in Seattle, attended the luncheon given by Mrs. Edith Rockefeller McCormick, exchanged a few words with her majesty and declared he was present in Chicago only on business, and was leaving for New York today.

Welcomes Ayres

Col. John H. Carroll, official host to her majesty, announced that he had requested Henry Ford to send a representative aboard the special train, to take care of auto transportation. J. J. Ayres, Ford agent, who was in charge of providing Lincoln during the early stages of the royal tour, was ejected from the train at Seattle for an alleged statement that Ford was paying the "incidental expenses of the trip." Ayres denied the charge. Colonel Carroll, at the suggestion of the royal family, later sent a letter to the Ford Co. praising the efficiency of young Ayres. Carroll said today he would not object to Ayres' returning to the train.

CHICAGO MINISTER TO TALK AT FOREST LAWN

Will Feature Second Number on Presbyterian Lecture Course Program

Dr. Norman Barr, director of Olivet Institute, one of the largest social settlements in Chicago, will be the speaker at the second number on the Community Lecture Course, sponsored by Forest Lawn Presbyterian Church, next Wednesday night.

The program will start at 8 o'clock with a half hour sacred and classical concert to be given by the Sunday School orchestra of Calvary Evangelical Church, 8 S. A. Wolfinger is director of the orchestra.

Dr. Barr will speak on "The World's Great Unhappiness" and his talk will deal with the efforts being made to bring universal peace to the world. Olivet Institute is one of Chicago's most successful settlement houses, and Dr. Barr has been the director there for a number of years. He is nationally known for his efforts in extending and directing social welfare and relief work. Three more numbers remain on the Community Lecture Course after Wednesday night. There will be none in December, but one will be given in January and March, with the concluding number in April.

CLEANER FOR NICKEL
A splendid cleanser for nickel fixtures can be made at home by taking equal quantities of liquid ammonia and alcohol and stirring in whiting to the consistency of a paste. Apply with a cloth, leaving the tarnished parts covered with the mixture until it dries. When dry, polish with a soft cloth.

SHARPEN DREAD KNIFE
How many times have you been served ragged-edged sandwiches? Probably the whole trouble was a dull bread knife. This is one of the most important utensils in the kitchen and the one most easily overlooked.

DECORATIVE SCREENS
As a room divider is beautiful is a three fold screen of parchment paper with exquisite Japanese prints set in to each fold. Delicious traceries of cherry blossoms in black hold the prints together, giving effect of a painting.

LAUNDERING CURTAINS
When laundering curtains of voile, serim or any material which has to be ironed, if they are folded so the salvage ends are together and ironed, they will hang perfectly even and straight.

Back, back, back to "American" stewed chicken which isn't cut up for the pot with a hatchet.

Do This when you first Sneeze

When a sneeze suggests that a cold has started, it is easily headed off. It need never develop. But the only way to prevent it is to have the right help on hand.

If a cold has developed, check it quickly. You can do that in 24 hours. But do more than that. Stop the fever, open the bowels, eliminate the poisons, tone the entire system. Then you will probably feel much better than when the cold began.

The best help is HILL'S. It combines the helps needed—all of them modern discoveries. One of the world's largest laboratories developed it as the utmost help for colds. It is so efficient, so complete that we paid \$1,000,000 for it. The use has grown and grown, until millions now employ it.

You will always know what to do for a cold when you once try HILL'S. But don't delay. Computer that cold by tomorrow.

BUCYRUS GROUP ATTENDS LOCAL CHURCH SERVICE

Delegation Hears Evangelist Harry Von Bruch at Calvary Evangelical

Representatives from the Evangelical Church at Bucyrus were in attendance at the revival service last night at Calvary Evangelical Church in charge of Rev. Harry Von Bruch, evangelist. Rev. T. S. Weaver, pastor of the church, who headed the delegation, offered prayer.

Rev. Von Bruch spoke on the subject, "Soul Winning," at the morning service and on the subject, "The Need of the World," at the service last night. Both meetings were exceptionally well-attended. Rev. Von Bruch pointed out the world's greatest need as salvation through Jesus Christ and not education.

Brief consecration services for the officers and teachers of the Sunday School department were held yesterday morning.

Harry B. Clarke, musical director of the evangelistic troupe, sang several solos at both services, with Miss Birdie Dixon, pianist. Mr. Clarke and H. O. Fleming of this city sang a duet, "Marvelous Grace," at the morning service.

Permits have been issued from the office of the City Clerk to Ralph Robinson for the construction of a garage at 819 Market-st. at an estimated cost of \$20 and C. E. Bartholomew for a \$200 garage at 220 Silver-st.

CHILDREN CRY FOR

Fletcher's CASTORIA

Years ago Castor Oil, Paregoric, Drops and Soothing Syrups were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupefy the child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy ESPECIALLY prepared for Infants and Children and no mother would think of giving to her baby a remedy that she would use for herself, without consulting a physician.

To avoid imitations always look for the signature of *Dr. J. C. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.
